The Railroad Meeting.

Much of our space is taken up, this morning, with the full report which we give of the proceed- be favorably considered by the convention. ings of the closing session of the Southern Pacific railroad convention. The report, though lengthy, will be read with interest by thousands of persons, who, for themselves or their friends and acquaintances, have an interest, private as well as

THEATER.-Mr. and Mrs. Florence both appear ed in "Ireland as it Is," on Saturday night, at the Louisville theater. "Ragged Pat," as played by the former, was very good. Mrs. Florence was not at all happy as "Judy O'Trot," although she caused much laughter. Mr. Lorton's Dan O'Carolan was touchingly rendered, and the handsome Miss Ida Vernon made all of the part of "Honer" of which it is susceptible. She is a very correct and excellent actress. The protean piece, "Mischievous Annie," was next presented, with the Florences in the principal parts. Mrs. Florence personated several characters to the sa tisfaction of the audience, as we inferred from the applause. Her dancing and singing always The "Irishman," as given by Florence in this piece, is such as we have never before

The Florences are re-engaged for this week The bill for to-night is the "Knight of Arva," "A Lesson to Husbands," another protean piece in which Mrs. Florence plays five parts, and the ' Happy Man." The peculiar talent of Mr. Florence will be observed in all of these pieces.

ROBBERY .- The tailoring establishment of Magness & Myers, on Main street, above the National Hotel, was robbed of broadcloths, vestings, coats, silks, etc, to the amount of \$400, on Saturday night. It is surmised that the thieves were secreted in the store when it was closed, in the evening, and at the proper time for this work, deliberately examined into other people's business, and as deliberately helped themselves to as much booty as they could carry off safely. They made their exit from the store by breaking off the lock of the front door. An augur was found behind a box on the street, near by, which may have be longed to the thieves. Those whose profession it is to look up such scamps, have their suspicions who are the guilty parties.

THE ROBBERS TAKEN. - Thomas State and James T. Lee arrested last night, the burglars who went into Magness' store Saturday night, and took out some \$400 worth of goods. There were three of the guilty party. Two of them were arrested at a house on Third, between Main and the river, and one of them at once owned up. They were taken to jail, and at a late hour last night, Chief Ray went to Jeffersonville after the third. The two arrested were well supplied with knives, etc., as of Dixon & Gilmore, had a short time since, spared no expense in furnishing them with what they wanted. They will make their appearance before Judge Johnston this morning, to give an account of how they managed to get so many nice things without the cash.

Cosmopolitan Art Ution .- The engraving for the present year is now ready to be delivered to the subscribers, by the honorary secretary, Jno. W. Clarke. It is entitled "The Village Blacksmith," and is, no doubt, the best ever issued by the cosmopolitan. It is a picture which will please alike the artist and the connoisseur, and will make a fine parlor ornament. For particulars column. A NEGRO RUNS OFF WITH A WHITE GIRL .- It ap pears from an advertisement in this paper, that ackson Hunt, a free negro, absconded from Smithville, Tenn., with Miss Harriet Frazer, a white girl, aged 15 years. It is thought they are making for a free State, where free-loveism and that sort of thing is tolerated. The advertisement deecribes the parties, offers a reward for the apprehension of the nigger, and requests the confinement of the girl until her father can get her.

THE "Sons OF ERIN" BALL .- The ball given by the "United Sons of Erin" on Friday night, at Masonic Hall, was a delightful affair. There were two hundred ladies present, and an equal number of gentlemen. The festivities were kept up to the "wee sma' hours." The supper, which was gotton up by Schulthess, was decidedly re-

FIRE AT SOUTH BEND .- On Saturday wight last, a destructive fire occurred at South Bend, (Ind.) originating in a machine shop near the St. Joseph river. Property to the amount of \$15,000 or \$20,000 was destroyed. Thomas J. Stanfield, Esq., representative from St. Joseph, and John H. Harper, Esq., are heavy losers by the catastrophe.

ANOTHER SUBMARINE CABLE.—The work of laying a submarine cable from Havana to the coast of Florida will be commenced forthwith, the whole amount of capital having been subscribed, and placed at the disposal of C. We publish this morning a sprightly letter from one of the best citizens and most influential Democrats of Henry county. It advocates the admitted claims of Robert W. Mr. Woolley is so well known in this communi tv. and in the State, that it is almost superfluous to speak of him in terms of commendation. Although only about thirty years of age, a large and lucrative practice testifies to the confidence of his public, in this great enterprise. We have not neighbors in his ability and skill as a lawyer. As space now to give our own views of the condition | a Democrat and political orator, his reputation is and prospects of the road. We shall, however, as wide as the State, and even extends beyond our do so at the earliest day possible. We have much | borders. His oratory is of no honied style, but his humor, strength, and passionate eloquence chained attentive crowds, in which the white-haired veteran and classical scholar joined in applause with enthusiastic youth. He has done such good service to the Democracy, that any combination which would attempt to set him aside for another, must present some one of pre-eminent abilities, and who has rendered unparalleled service to the

THE HOG MARKET-RECEIPTS AND SLAUGHTER .-

This market is maintained, with, however, no ansactious reported, the packers continuing busy in the slaughter of hogs under contract, the ceipts of which are not only heavy, but more than double that of any previous year at the same period. If they continue to come forward in the same ratio, the packing around the falls will each 300,000 head in two weeks more, and the season close nearly a month earlier than ever be fore. The hogs for slaughter "have been counted, and the packers set down the result at a little less than 300,000. Be that as it may, the high prices which now prevail are likely to force every available hog to the slaughter, and we would not be surprised if it exceeded our estimate. The prevailing quotation for heavy hogs is \$6 50 net, and we do not hear of any pressin on the market, by which it may be inferred that they are engaged or taken on arrival. Subjoined is a full report of the rsceipts and slaughter up to

STOCKHOLDERS' MEETING Report of the Business Committee.

SPEECHES, ETC.

SATURDAY MORNING'S SESSION. Pursuant to the adjournment of Thursday, No rember 25th, the Southern Pacific railroad con vention met again Saturday morning, at 9 o'clock, at the Masonic Temple. Hon. Jeremiah Morton, the president, took the chair, and the convention proceeded to business, with a full attendance of stockholders.

Col. Post, of N. Y., arose and explained how ie was misrepresented by the morning papers, of Saturday, as making himself a vice president of the convention. The truth was, he had made a notion for the appointment of six vice presidents, and afterwards his name was suggested by a member present to be added to the list. He was not so enamored of honors as to confer them upon himself in that way. Gen. R. V. Richardson, of Tennessee, as chair-

man of the committee to whom was referred the report of President Fowlkes and the accompany ing documents, arose and made the following re-Your committee, in tendering this report to the

convention, beg to say that they have diligently labored in the business intrusted to them. They have not overlooked the prospects or the hopes of the stockholders, but have given all an earnest ttention, and unanimously concluded to make REPORT OF THE COMMITTEE.

Your committee having examined the report of the president and accompanying documents, are satisfied that the rights of our stockholders will be secured upon the payment of \$327,000. The new company will surrender our road and property into the hands or our stockholders; the State of Texas will dismiss the suit against us, and the work will be immediately prosecuted without emharrassment.

If we do not extricate ou elves from our present embarrassments, we can ot expect their sympathy and aid will be extend d to us any further; and we must make up our minds to endure the serious consequences that will follow. We submit, and recommend, the adoption of the following resolutions, and urge the prompt and faithful carrying out of the same.

That the president of this company be au-orized and directed to sell the stock which has been surrendered, and which may hereafter be surrendered, if necessary, to enable him to ex-tricate the company from its present liabilities and difficulties, and if any of such stock is sold,

to issue certificates of stock to purchasers.

Resolved, That the president of this company be requested, at a suitable time and place, to call a general convention of all railroad men, and delegates from all cities interested in the success of our road, for the purpose of deliberating about our common interests. On motion of Col. Gorin, the report, as read by

Gen. Richardson, was unanimously adopted. The Rev. C. D. Donaldson, of Kentucky, made an inquiry as to the quantity of stock to be returned, and the price at which the relinquished stock would probably be sold. The Hon. Jeremiah Morton, president of the convention, replied PRESIDENT MORTON'S SPEECH.

It is optional with the stockholders to return to the company one-half their stock, or make the proposed loan of 50 cents to the share. It is be-lieved that a vast majority of the stockholders will pay the assessment, and that whatever sum is wanting from the paid assessments to meet the ressing liabilities of the company, can be real-ed from the relinquished stock. I speak au-noritatively when I say that President Fowlkes, one of the largest, if not the very largest stock-holder, is going to pay the 50 cents call on each share of his stock. He does not intend to relin-quish a single share. He has too much confidence

n the success of the enterprise to give up any of as millions of stock. He intends that the enter-rise shall succeed. It is thought, however, that by the 20th of Dember, at least 100,000 shares of the stock will returned to the company, there being nearly at amount given up now. This will decrease the total issue one-sixth, and raise the value of what remains sixteen per cent. There being 620,000 shares in all issued, a return of 100,000 will leave only in all issued, a return of 100,000 will leave only 520,000 shares in the hands of holders: Of course, the remaining 520,000 shares will be increased in value, and it is thought that nearer 200,000 shares will be returned. Such a relinquishment will, of ourse, make the remaining stock less in amount, at proportionately more valuable.

President Fowlkes informs me that, although

his report, as printed, may be according to the manuscript, yet it does not always convey the thought intended by him. Although he deprecates the large expenditures made by this company for so little that is done, he must not be understood. ny for so fittle that is done, he must not be understood as fixing unjust censure upon any one. In his report, as printed, he is made to say that the Illinois Central railroad had expended \$2,600,000, or thereabouts, before the construction of the oad was begun, and that our road had expended hree millions one hundred thousand dollars in survey, though of much greater extent, before he ground was broke. On the contrary we have more to show for our \$3,100,000 than the Illinois Central had for her \$2,600,000. We have obtained ne of the finest charters in the world. It may be doubted if ever such a charter was given by covernment to man. We have 25 miles of finish d railroad, and property and franchises, valued t more than \$2,000,000. And for our \$3,100,000 e have surveyed a route which has been adopted y government, a distance of more than 500 iles, for the transportation, of mails and which

By the time that our convention meets at New Orleans, on the 20th of December, our stock will be enhanced considerably in value. The fifty cent see chanced considerably in value. The firty centralls upon the stock will then have been paid to such an extent as to insure the liquidation of the company's liabilities. The intrinsic value of the stock will be \$2.60 by that time. My calculating friend (looking to Col. Gorin.) figures it out much more, but I shall not now fix an amount that in more, but I shall not now fix an amount that in he estimation of some might be regarded a visionary. The enterprise is grand, and our interest should make us all more active than ever. Let every one put his shoulder to the wheel, and give helping hand. If there are any selfish stock-holders here who will not pay the call, nor relin-luish a part of their stock, but who still seek and expect to enjoy the prospective benefits of the un-lertaking, we envy them not such distinction. Let the assessment be paid as far as possible, and what is needed beyond the sum thus raised, can easily be gotten from the forfeited stock.

Senator Haycroft, of Hardin county, Ky., waned to know if the stockholders would generally bay the assessment, and what were the indica-

Mr. Burkhardt responded that Kentuckians would pay the assessment. Some had already paid, and thers had the money ready, and were anxious to pay it. There would be no difficulty in this State. Col. Gorin said he understood that about \$8,-00 had already been collected in Kentucky, and sed to await the action of this meeting. Mr. Monks said that the receiver of Kentucky

ad already gotten about \$6,000 from the 50 cents Hon. Jeremiah Morton said that the Virginia tockholders would pay the 50 cents. He did not hink any stock would be returned from that quar-

er, or that the money would be slow in coming in response to the call of this meeting. Gen. Greene responded for North Carolina, that he assessment would be paid there. He had the oney in his pocket to pay up now, and would do o as soon as he could meet the receiver. He also

ad 5,000 shares of stock to return. Rev. Mr. Deering, of Louisville, made several quiries as to the number of shares that would surrendered, and the probability of the liabilies of the company being met by the 50 cents ssessment and the surrender of the stock. President Morton made several replies, the substance of which was as follows:

It is not known how many stockholders will ay the 50 cents, nor how many will relinquish ne half of their stock. If 200,000 shares of stock e returned, that would leave \$210,000 to be raised the 50 cent assessment, but if 100,000 shares left minus by the assessment returns, can be ade up by the sale of the relinquised stock, etc

COL. GORIN'S SPEECH, Col. Gorin, of Kentucky, arose and said:

Already has the committee been offered two ollars per share for all its surrendered stock, be paid for in New Orleans. It has been etermined, though, not to sell one share until he demands of the road are such that it will re-uire a disposal to meet its wants and necessities. here is not upon the face of the earth a charter akin to the one which the people of Texas have given to this company and to America. Esti-nate, if possible, the cities you will build up along ts line, which traverses one of the finest coun-ries upon the globe. This is not visionary, or he birth of a sanguine and imaginative brain; it s as real as the building of the Southern Pacific ailroad will ultimately prove. If foresight, pruence, and care characterizes the manage why even the land upon which these cities will be built can be retained and kept under the juris-liction of the company. With the stock reduced ne-third, it is the most valuable in the world-In action your committee have seen fit to place at the immediate control of the president all the assets, so that he can ad libitum act for your best nterest. If we are to pass through the chicanery of law for our road, we will have no stock, nor will we have a charter. The people of Texas will this was to quarrel over this matter, and in his they are right. Now is our time both for concert and decisive action. We must come up the end. It has been asked, have we the power finish this road? To this I say without hesiancy, and yet not without premeditation, we

The president has been pleased to call me a calculator. I have made an estimate of the value of the stock of this road. I think it is worth \$266 per share. President Fowlkes has made a calculation, also, and he puts the present intrinsic value at \$2.50 per share, without taking into consideration the millions that the charter franchises, etc., are worth. Had I the money, I would give \$5,000,000 for the charter which the Lone Star

has given us.

The stock which is to be returned to the com pany, must be placed in the hands and at the dis pany, mast be placed in the hands and at the dis-cretionary disposal of the president. It is not right to trammel him by fixing upon it a price.— Let him act as his judgment dictates. If it be-comes necessary for him to sell it at 50 cents per share, let it be done, if it only save and build the road. If there is anything available, let that also be disposed of, so that the charter and franchises be disposed of, so that the charter and franchises remain inviolate. If selling the surrendered stock at a less sum than par is found necessary, give him the power to sell at any price that will extricate the company from the difficulties under which it labors. We are all of us here assembled as honest men, to vindicate our rights and save our own. We stand, at this present moment, higher as a company than we ever did before.—

Texas, with unequalled liberality, has given to our company a construction fund beyond any endowment ever received by any other read in America. Such a grant of land never was given before, in the world, to an incorporated company for internal improvement purposes; and not satis-fied with doing this much, but lavish of her liber-ality, she has loaned from her treasury six thou-sand doliars per mile, an amount sufficient to

sand dollars per mile, an amount sufficient to grade the road and get the cross ties.

It is said by some, if we can show that the amount of money necessary to free the company will surely be raised, then they will advance to the company fifty cents on each share of five per cent. stock most cheerfully. If we had the money now, we should not ask you to make the advances. If we knew exactly where we could get it, if you will not help us, we should not trouble you on the subject.—
You might sleep on in your imagined security You might sleep on in your imagined security until the danger had passed. But we say, if each stockholder does his duty, we shall have most cer-

rainly enough money to free us. Look for one moment as reasonable men. It is estimated that there are 300,000 shares of five per cent. stock, which will make the advance.—
That will give us \$150,000. There are suspended calls, and debts due us, amounting to \$270,000.—
Let each debtor pay his debts, whether due on calls, or otherwise. There are and will be about calls, or otherwise. There are, and will be, about 100,000 surrendered shares, for which the general committee was offered two dollars per share, which offer they properly declined; making from this source, we safely calculate, \$200,000. Footing up all these resources, we shall have the sum of \$620,000. The next day after will be ttal. No day subsequent to the one agreed on ill save the road.

This so-called new company reminds me of the nan that bought the elephant. After once becomg the possessor, he knew not what to do with it hey are hungering after money, like men gener-lly, who have not a very great overplus. We, s stockholders, have but one course to pursue; hat is, pay the debt, and we ourselves will have he money that the others seek. If you do not ome to the rescue, your road, with all its appurnances, as well as stock, will be irretrivably lost prompt measures be not taken, adverse legis-tion by the Texan authorities, added to adverse celling on part the of its citizens, will be the consequence. This installment must be paid upon the av fixed, and on no other. Everything depends hey fail the stock will not be worth one cent.

W. L. GRADY'S SPEECH. We are told that \$2 has been offered and will given for each share of stock that is surren-ired in place of paying the 50 cents assessment. I will go lifty cents better, and give \$2 50 per share for what is relinquished. And if this wont do, I will still go fifty cents better per share for this surrendered stock, and take it all.

REV. JAS. M. SHANNON'S SPEECH. I never more regretted the want of strength and health. Here I am amongst many of my bldest friends. In the midst of the inclemency of the weather, and the pressure of business of the weather, and the pressure of business connected with the University over which I pre-side, I felt it a paramount duty to exert every effort in behalf of this, one of the greatest enter-prises of any age. In doing so, I felt justifiable in risking my health, and I know not what may

be the result.

More than all else, I am pleased to notice your berfect unanimity. Let me, in your considerations, call your attention to the late immense military expedition to Utah, and its cost. With a route like this, what would not have been saved other covernment. It would almost have been saved the government? It would almost have built our whole road. From the borders of Iowa even

It was then moved by H. Burkhardt, that President Fowlkes should make a speech. Dr. Fowlkes, though ill, and weak, and exhausted, arose at the call of the house, and of the chairman of the conrention, and spoke as follows:

Mr. President and Gentlemen: I am sick and

cannot speak so as to be heard. I will be glad to see any of you at my room, and I would demon

see any of you at my room, and I would demonstrate to you, that if you will meet the recommen dations of your committee, your rights will be secured, that the road will progress, and that it may be constructed to the Pacific ocean, with moderate government aid, in seven years; and without this aid, early enough for me to visit China, as old and as feeble as I am, before I die. Decision, formpass, and the confidence of faith render sucfirmness, and the confidence of faith, render success inevitably sure. It is true, as is said in my report, the surrender of 99-100 of the stock provides no money to meet this exigency, but the surrender of half the stock, without the loan of a dollar, while it leaves each stockholder with precisely the same interest. cisely the same interest, would so far relieve the company of a stock indebtedness as to make our stock worth par in property, etc., without es-timating at all your rights and your franchises.— In this condition I feel confident that I can dis-pose of enough stock here, New York, St. Louis, Cincinnett Memphis, or New Orleans to pay the debts, amounting to \$327,000, embraced in the compromise; not only so, but in a few months be able to arrange the entire indebtmonths be able to arrange the entire indebtedness of the company. But, gentlemen,
confidence is all that is wanted. This gives
concert and harmony of action; whereas,
heretofore, your company has been broken down and greatly impaired by calumny and
falsehood, and the defamation of your representatives and your company, with the object and
design of plundering you of your rights. The
facts are as I have stated them. We have \$270,000 due for unpaid installments on shares of of this were paid, leaving only \$2 30 still due. If this were paid, leaving only \$2 30 still due. If this were paid, you would be protected, and beyond all danger. We have 620,000 shares of stock, less 100,000 shares surrendered, leaving 520,000 shares, which, with a loan of fifty cents per share, would be supported the sum of \$20,000. As to your beggarly, plebeian dogs-"depart, ye ac cursed; I know you not," says legal favor. Here then, we find it established as a rule of judicial procedure, that no man is to be convicted if any one on the jury, by the corruption of money, or declare for acquittal; for though one juror alone cannot acquit, he can effectually prevent a conviction. Let this presentation of the case be closely scrutinized. It presents glaringly a fundamental error in our present system; and that system has been deliberately so framed as to allow one scoundrel to defeat all the ends of criminal justice. What matters it to him that slaughter daily waxes greater? That all security of life has ceased? Was he not bought for a price, and is not the frequency of opportunity an increased chance of gain? But so it is; a system has been fixed upon the people of Kentucky, which mocks justice, gives bribes to corrupt jurors, and fat fees to lawyers. In Louisville and Jefferson county, within the last ten years, at least fifteen human beings have been killed each year, by human violence, to say nothand other like gentle life-takings of too frequent occurrence to be worth noticing. And for these one hundred and fifty killings, many of them as atrocious murders as human malignity could contrive, how many have been convicted of crime?-One has been hanged-a poor dog of a flatboatdeath-an Irishman, at your service, sir; and five have been sent to the penitentiary-poor devils, who likely enough would have found their way, somer or later, to the State prison for stealing.—

dwell on this subject without a sense of outrage

It has been shown that our jury system is so framed as to give the right to the accused to elect his own jury. That such a principle is ab-tractly right, no one will contend, and that it is stractly right, no one will contend; and that it is practically wrong, the experience of this State rresistibly establishes. 'Tis a principle of batchery aggravated by a promise and pretense of protection. Neither party to any contest should have the right solely to setect his jury, though it must be confessed that one solely selected by the commonwealth would be far better than one solely selected by the accused; for no one ever heard of an attempt, even in Kentucky, to pack a jury for conviction. It never can, and never will, be the case. By inquiry as to the direct and visible eans by which the accused selects and packs his own jary, we will find them to consist in his right of challenge to polls, which is two-fold; ters. Among the many notices, we offer the following to

By the common law, the accused, in cases of felony, was allowed thirty-five peremptory chalenges, or one under the number of three full uries; but the crown, though having no peremptory challenge, was not required to show cause till the panel was exhausted. By a statute as far | Zeitung, N. Y. back as Henry VIII, repealed as to treason in the enges allowed to the prisoner were reduced to twenty, and the law of Kentucky, at this day, orresponds with the statute of Henry. As the than forty-eight, the rights of the crown and prisoner, in this regard, are seen. By our law, the shows testimonials in every language known in America, commonwealth was never allowed to challenge, except for cause, until the criminal code went into | Clayton, of Delaware." effect, and her right was limited to five. Even this concession was most strenuously resisted, and we believe that nothing saved it but the arguments and influence of the then Senator from Louisville, Mr. Wolfe. Meagre as this concession is, it it almost destroyed by the practice of summoning talesmen. The Revised Statutes, 430-1, require that these shall be selected from the list eturned by the jury commissioners after the regular panel is exhausted. This requirement is rarely, if eyer, followed, and hence the accused packs his jury out of talesmen, employed or procured by him to attend for that purpose. Thus he is empowered to select his jury, whereas all jurists agree that the object and spirit of the peremptory challenge "is a right, not to select, but to reject;" and so common sense teaches. Equality of peremptory challenge might not entirely remedy the evil, but certainly there is no good reason, in a system so mild and so laxly administered as ours, for establishing a principle of inequality in favor of felons and against the best interests of society.

But the power of selection given to the accused by peremptory challenge, is nothing compared with that by challenge for cause. Precisely what is ground of challenge for cause in Kentucky, can not be said in advance of a decision, or rather a series of decisions, by the court of appeals. We know, however, that the circuit courts have often regarded it as sufficient ground-we are considering this objection alone-that the juror has expressed or formed an opinion, no matter how or why. The argument in support of this is that if the juror has formed an opinion by hearing the vidence, he is not unbiased; if he has been so as to form one without staying to hear the evidence, he is unfit. It is rather difficult to frame a serious argument against such grannyism. In England the declaration of an opinion to disqualify a juror must imply something of malice or ill-will toward the prisoner .-No reasoning man can hear or read any apparenta certain free negro, named Jackson Huntof Huntof gome sort of opinion. In cases of great notories ty, all such men will necessarily hear or read such statements, with a minuteness and correctness proportioned to the enormity of the offense.—

Such of these as are honest, avow the disqualification; while the bribed and packed wretches brought forward by the accused, always are competent. To prove their turpitude contrary to their own oaths, is always difficult, often impossible, until too late to do any good. Hence, the tendency of the rule generally applied in Kentucky, is to exclude from the jury box in criminal cases honest men, of reason and intelligence, leaving its paramount dut.es to knaves, fools, and ignoram; uses. We insist that such a rule is worse than wrong, and instead of waiting for some hundreds

[Correspondence of the Louisville Courier.] Letter from Postmaster Campbell. Postoffice, Nicholasville, Ky., November 26, 1858.

Editors Louisville Courier: In your paper, of yesterday's date, may be found a communication any other mode of influence, can be induced to from Mr. Woodruff, postmaster at Lexington, replying to some charges preferred against him by a Mr. "B. H.," of Pleasant Hill. I certainly would not interfere with the fight between "B. H." and Mr. Woodruff, were it not that the irregularities complaired of by "B. H." are chargeable to me His language is: "I think if your corresponden had only taken the trouble to make a little inquiry into the matter, he would have found that | with Ohio and Mississippi Railroad at Mitchell for all the irregularities on that route have been since the mail has been carried in this close connection by the railroad, for which I am not responsible.' Now, the plain English of the foregoing is, that all the irregularities complained of by "B. H." are attributable to the postmaster at Nicholas-ville. This insinuation was wholly gratuitous on the part of Mr. Woodruff, and was not at all necessary in order to his making a good defense.— When he had stated that the mail from Louisville to Pleasant Hill did not enter his office, his defense ing of infanticide, mob-murders, election riots, was full and complete. There was, then, no necessity, whatever, for his putting the blame upon any person. But, where rests the blame? Not with me. I send all matter for Pleasant Hill the same day it reaches this office. I keep nothing over. But why is it that "B. H." does not get his papers regularly? I do not know that I could give the reason every time he misses, but I can tell him why he did not get it last Monday. It is man; another broke jail while under sentence of because I did not receive any Louisville mail that day. It was detained somewhere. And here I will take occasion to say that about ten times since the 1st day of July last, the Louisville mail

permit me to say, that in many instances, when persons fail to get their papers, the blame rests with the editor, or his clerk. Don't exclaim that's there would be neither necessity nor occasion r hanging or threatening men by mobs, or burn. written, and yet not one of them was for any ne son in this county, nor could I tell where to send them, and, of course, some persons failed to get their Journals that week, for which some postand a feeling of horror. We acknowledge both, and we care not for those who would censure us for either. Without giving further expression to either, we proceed.

It has been shown that our jury system is so mistake in writing the names upon the papers and in directing the packages, is very much mis

a decision in reference to the removal of the capi-tal of Kausas. The seat of government was fixed, in 1855, at Lecompton, in accordance with a law which required it to be permanently located ings were erected there. In April last, however the Legislature passed a law changing the seat of government to Minneola. The Attorney General decides that this law is void, and that Lecompton must remain the capital during the existence the territorial government.

The charges to the grand jury were delivered by
both judges, strongly impressing upon the members of the jury the duties of impartially discharging their oath of office, and while avoiding
unfounded accusations, to suffer no personal sentiments or private feelings to deter them from
presenting for investigation every case where reasonable evidence of guilt exists. These charges,
it is understood, were designed to meet the efforts
made by certain parties to induce the grand jury

of the slaver Echo.

Some delay occurred through the difficulty in getting a full jury. The probability is that the action of the grand jury will be made on Monday.

The subject of the selection of a candidate for the seat in the United States Senate, left vacant by the death of Mr. Evans, is now a prominent question of discussion in political circles. Ex-Governor McAdams is the favorite of all those who desire to agitate the re-opening of the slave trade, but R. Barnwell Rhett, ex-Governor Manning, or Gen. McQueen, will most likely be the ning, or Gen. McQueen, will most likely be the choice of the Legislature.

FROM THE FRONTIERS. n formation in regard to the Gold Mines of Kansa MOUTH OF KAW, KANSAS TERRITORY, Nov. 20th.

Editors Louisville Courier:-Supposing that the ople of the East (Kentucky is one of the Easern States from here) are at this time as fully alive to the subject of the newly found gold min as we are out in the far West, I have concluded to give you a gold letter-that is to say, a letter made up with reliable information respecting the mines, the country around them, the route to them, etc. This information has been carefully gleaned from several sources, and is believed to

The reports about the gold mines of Western Kansas are now so well authenticated that there can no longer be any doubt but that the eastern slope of the Rocky Mountains-about the head waters of the Kaw, Arkansas, and South Platteare as rich, in the precious metals, as Fraze river, or any portion of California. Indeed, it is a fact well known to geologists that in mountain ranges running North and South, the quantity of debris and depoist, after an upheaval, is greater on the east than on the west side of the mountain; and this fact, although not readily accounted for, is sufficient to induce the belief that the greater s sufficient to induce the belief that the greate amount of the precious metal will yet be found on the east of the Rocky Mountains, where are the greatest deposits of quartz and primary rocks, which are the matrix and home of gold.

The inexhaustible supplies which New Mexico for years has furnished, and which are now cal-

rulated upon with as much certainty and regular-ty annually, as the productions of agriculture, are corroborative of this fact.

are corroborative of this fact.

The region of Pike's Peak, which lies just North of the mineral region of New Mexico, has been hemmed in by hostile bands of savages—Chey ennes, Arapahoes, and Uttes—and hitherto we have had no reliable data of its geography, topography, climate, etc., further than the hasty notes of Frament in his available to the reliable to the control of Frament in his available to the control of Frament in his available to the reliable to the control of Frament in his available to the control of the contro cured the services of Herr Fahrenberg, a skillful artist, late of Jacobs's gallery, New Orleans, and am now prepared to fill all orders for Photographs, in any style, painted in oil, water colors, and pastel. We are still making those beautiful Ambrotypes, Melalnotypes, Sphereotypes, etc.

Ladies, if you want something pretty, go at once and procure one of those little miniatures, beautifully painted on ivory by the artist Fahrenberg, who is the themself approach in the past favorable reports come to find the hasty notes of Fremont in his explorations through the mountains, and the reports of trappers and hunters.—In fact, all Western Kansas is to-day comparatively unknown, except to very few men. An impression has prevailed that all of Kansas one hundred miles west of the Missouri river was a barren plain, producing only buffalo grass, and unfit for cultivation. But settlements already extends three hundred miles in the interior, and tility—that it is equally cultivable with any other parts of Kansas; moreover, that buffalo grass

the other hand, a well watered region.

A gentleman directly from the North Bend of the Arkansas, which occupies nearly the geographical center of the territory, informed the writer a few days ago, that that region surpassed any part of Kansas he had visited.

Any one familiar with prairie country, particularly that of Kansas, very well knows that all the thoroughfares of travel avoid the streams, except theorem their sources—on account of crossings—and keep upon the high divides. Hence the erroneous impression which has to a great extent prevailed.

keep upon the high divides. Hence the erroneous impression which has, to a great extent, prevailed among travelers, that Kansas is not well watered. In conversation with a young man returned to Westport, Mo., from Pike's Peak, I learn that the country, in the vicinity of the Peak, exhibits every evidence of fertility, and is surpassingly beautiful. Instead of a continuous range of mountains, which he had expected to behold, he found a region of hills and valleys, watered with crystal streams, and with a scenery varied and pictur. streams, and with a scenery varied and picturesque. He also informed me that he saw plenty of game, enumerating the antelope, deer, black tailed mountain goat, wolf, etc. He also visited the silver mountain so often described by travelers, and corroborated fully the richness of its ore. In addition to the gold found by his norty, constructions the mouth of the Kaw, or to Independence Landing, and then strike the Santa Fe trail at Independence or Westport—only 3 or 4 miles from the river—and there they can supply themselves with maps, guide-books, stock, provisions, camp tools, and everything they may desire. Kansas City, immediately at the mouth of the Kaw, opposite Wyandotte City, Kansas, is probably the nearest point, and where there are many half-breed Indians, old mountain traders, French royageurs, and others, familiar with every foot of the road, from whom all necessary information can be obtained and whose company as within can be obtained, and whose company as guides, teamsters, and attendants, can be obtained if desired. Below I append a table of distances from the Missouri river to Pike's Peak, the point to which all greedy eyes are turned:

Dragoon Creek.
Eim Creek.
Council Grove, village.

Pike's Peak is situated in latitude 39, longitude 105, on the great water shed of Western Kansas, where the Arkansas, Kansas, South Piatte, and Grand (Cal.) rivers take their rise. It is due west of Westport, Mo., and is in what is called the Arapahoe District.

Many persons have gone out to those regions from about here, and letters are daily expected from them. As they are received I shall keep you posted in regard to their contents.

Respectfully, CHEROKEE.

Three Jews—two of them occupying high places in the Synagogue, and known as the Rabbi Asch and the Rabbi Rosenthall—have been arrested in this city, on an accusation supported by the leading Rabbi of the Jews in this city, charging them with acting as agents of the Prussian, Hamburg, and Saxony Lotteries. Sergeant Birney, with a portion of the Mayor's squad, "descended" on the residences of the accused, Wednesday night, and arrested two of them.—One Rabbi was seized in the Synagogue, in Allen street, where he was engaged in religious exercises, before a congregation of some 300 or 400 persons. The Jews were greatly excited, and denounced the incursion into their temple, and the audacity of the person who accused their priest of wrong doing. One of the accused was not arrested till received. of wrong doing. One of the accused their Priest of wrong doing. One of the accused was not arrested till yesterday morning, when all three were brought before the mayor, and admitted to bail in \$1,000.—N. Y. Times, Friday.

FATAL ACCIDENT—A CHILD'S HEAD CUT OFF.—A few days since, while the steamer Morgan L. Martin was lying at the dock, in Oshkosh, Wisconsin, a son of the owner of the steamer, a boy some six or seven years old, was playing about the engine, and finally dropped something between the beams supporting the shaft, and stooped over to recover it. The engineer, entirely ignorant of the whereabouts of the boy, started the engine, and the crank revolving, came down and struck the boy on the back of the neck, completely severing his head from the body, without giving a moment's time for cry for help. The father being near, started, caught up the headless body, and the cry of "Oh, God!" which escaped the father's lips, chilled the heart's blood of every one that saw that awful sight and heard that heart-rending invocation. McLean's Volcanic Oil Liniment.

The best Liniment in the world for man or beast.

Another remarkable cure performed by McLean's Volcanic Oil Liniment. Read for yourselves:

Thomas Ford, a blacksmith, living near Cass avenue, on Tenth street, had a horrible running sore on his foot. He tried various Liniments, Salves, &c., but could do it no good. He despaired of ever being able to work at his trade again, because he could not bear any weight on his foot; and by one small bottle of McLean's Volcanic Oil Liniment, he is now perfectly cured.

Rheumatism, paralysis, neuralgia, bruises, sprains, stiffness in the joints or muscles, swellings, sore throat, earache or toothache, wounds, fresh cuts, sores, burns, scalds, pains, &c., yield to the 'imagic' 'influence of this wonderful Liniment.

THE RIVER was about at a stand last evening, with four cet four inches water in the canal—a fall of only one noth in the previous 24 hours. The weather has been quite warm, and very cloudy, with more rain, as we precisted after the glimpse of sunshine Friday, though rather cool again lust evening. Saturday night, a good deal f heavy rain fell, which, if it extended up the river, will ertainly make another, and we hope a good rise, and general resumption of navigation.

certainly make another, and we hope a good rive, and a general resumption of navigation. Our dispatches report the river slowly receding, both at Pittsburgh and Cincinnati; but the officers of the mail boat encountered heavy rains Saturday night, with rain all day, and a rise may be considered certain. In the mountains a good deal of snow had fallen, and rain in that quarter would make a big river at once.

The water along the lower Ohio is falling at all points, and the sand bars are becoming quite prominent and troublesome again. One of the most difficult, just now, is at the crossing just below New Albany, where the chancel has suddenly changed, forming an ugly bar. The Diamond, from New Orleans, grounded there Friday evening, though directly in the channel, as heretofore ictined. She managed to back off very easily, and found pretty good water to the left of it.

The Diama, Capt. Sturgeon, for New Orleans, was detained Saturday night by bad weather, but started soon after daylight yesterday morning. She went out over Fortland bar without rubbing, but grounded hard on the new bar below New Albany, and had not worked over ago to 4 o'clock last evening. The R. M. Patton first grounded on the bar, but got off.

The John Gautt, with over 300 tons for the Diama, had landed just above the bar, waiting for the former to get

Every berth in the bin was taken, nearly all Southerners, the greater mber bound for New Orleans. Among her passen-rs was a number of our merchants and bankers, making eir annual visit to the South.

An improvement in Kentucky river navigation is be attempted, as we see by a Lexington paper. A peting of he Kentucky River Navigation Company has en called for February next. Thanks to the officers of the Diamond, from New rienns, for a manifest and memorandum. She had a cry heavy freight, including four hundred hogsheads of agar, half of which was reshipped on the mail boat for Tar, and other places.

An Attempt to Kill-Infernal Machine.— Last night, about half past eight o'clock, at Gloucester City, New Jersey, an attempt was made upon the life of H. F. West, Esq., superintendent of the Washington Company's cotton mill. Some cowardly scoundrel had fastened a loaded pistol in a frame work and hung it upon the gate post in front of Mr. West's residence, and so arranged it that the opening of the gate would fire off the in front of Mr. West's residence, and so arranged it that the opening of the gate would fire off the pistol, with an aim at the heart of the person who might spring the trap. It so happened that two ladies, mother and daughter, passed in instead of Mr. West. The daughter stooped to push the gate open, and as it opened the pistol went off, the ball passing just across the back of her head, and lodging in the opposite gate post. The ball also passed immediately in front of the mother, and the powder flashed in her face and scorched it.—
This is the fourth attempt of the kind and as yet. This is the fourth attempt of the kind, and as yet there is no clue to the perpetrator.—Philadelphia

Great Pigeon Match.—Mr. M. King, of this city, the crack shot, and probably best marksman on the wing in this country, shot a match of \$5,000 a side on Thursday. The bet was, that he could not shoot forty out of fifty double birds.—He shot forty-six of the birds, which fell within the prescribed distance, and three others, which fell beyond, leaving only one missed. He also shot another match of twenty-five single birds, of which be brought down twenty-four.—Fort Wayne (Ind.) Sentinel.

Dr. Wilson has been treating aching teeth successfully for the last five verys by destroying the Fair in 1857. Dr. Wilson has been treating aching teeth successfully for the last five yerrs by destroying the nerve without pain, filling the fangs and crown with gold, restering the tooth to its natural shape, and making it as useful as before decay. Do not have your teeth extracted until you are certain they cannot be saved.—More than fifty per cent. of the teeth usually extracted can be made useful through life. We are daily treating and filling teeth of this class that comes in to be extracted. In no case do we disfigure a tooth by filling to fill it, using other and better means than the indiscriminate use of the file. Any tooth can be filled with gold that is worthdiling at all. We use, when requested, a local anesthesia to prevent pain in extracting teeth.

All operations warranted as represented, and terms as liberal as any good Dentist can afford.
